United Kingdom

Telephone: 01242375100

Waldrons have been established for over 150 years. Our commitment to excellent client care has seen us grow, with offices across the West Midlands, Worcestershire and Gloucestershire, with a national client base. We are a multidisciplinary practice providing specialist legal services to individuals and business. We opened our Cheltenham office in 2014, and have since built a strong client base, particularly a growing presence in medical negligence. Our offices are spacious and welcoming, close to the town centre and near to Junction 11 of the M5. Home visits are also available across Cheltenham and Gloucestershire
