The Family Law Clinic is the UK's most popular, low cost alternative to Solicitors and Barristers, providing divorce and family law advice, services and court help for clients considering or involved in separation, divorce, Children Act, property and money matters. Our Legal executives are based in a variety of areas around England, and if we do not have an office in your area, our legal executives are happy to travel to your home, office or a neutral location near to you. Our legal executives specialise in high net worth, complex cases. We also have clients living abroad, as distance is no barrier to providing services effectively. We are not Solicitors. Family Law Clinic Ltd and its employees are fully insured.
