Defence Forensics Ltd is widely recognised as the leading independent forensic science consultancy, providing expert witness services for the defence, private individuals and appeal cases in both the criminal and civil legal cases. Defence Forensics Ltd was established to offer unbiased advice and expert witness services and is managed by James Clery, who has 20 years of experience at court level forensic biology provision in both prosecution and defence in the UK and worldwide. We provide world class services in: STR DNA profiling Y-STR testing Low Copy Number (LCN) DNA mixtures • Mitochondrial SNP's Paternity Scene of crime Serology (body fluids) Bloodstain pattern analysis Hair/fibre comparison Crown DNA laboratory continuity Crown accreditation Crown methodologies Forensic entomology/insects Our focus on forensic biology means we can offer unrivalled expertise in this area rather than an 'jack of all trades'. We are confident that when it comes to forensic biology our expertise and experience is unrivalled. See our website for numerous testimonials from previous clients. With budget cuts across the board we have introduced a new reporting system, utilising a Staged Forensic Reporting (SFR) approach. This allows us to provide a service that is bespoke and tailor made to the specific case circumstances thereby cutting time and costs whilst giving the flexibility to clients to access exactly what they require in a timely fashion. Defence Forensics Ltd does not broker or do reports for other firms. Urgent work is a speciality. We look forward to having the opportunity to support you.
