We have a totally unique ethical model to deliver corporate legal services. For our clients: We are an award-winning law firm – all our lawyers are partners coming from top City law firms who provide legal and commercial advice at great value. We have very low overheads and pass on all those cost savings to our clients. We do the full scale of commercial and banking services and we have been involved in ground-breaking deals such as Pawame. Take a look at our testimonials to see the great things that clients say about us. For our lawyers: Our lawyers get 90% of the fees – this is much higher than anywhere else, and this enables them to be much more competitive in pricing to clients. Diversity and inclusion are baked into our DNA and we enable true flexible working. Everyone, including the Founder, gets paid in the same way. Our ethical model means we have excellent lawyers who are happy, healthy, focused and devoted to our clients – as a working model it is a game changer.

For our society: Aria Grace Law gives all of our profit to charity and good causes and also plant a tree after every deal. We also act pro-bono where people can't afford us. We have set up a business structure for the next generations. The Aria Grace Law model is unique, it is a game changer and we believe it is the right way - for business, for us and for society. We have experts to help you with Banking & Finance Law, Commercial Law, Commercial Property Law, Compliance Consulting, Start-Ups, #EthicalWorld, Employment Law, Technology & Outsourcing Law
